

Subject	Specialized Lecture for Basic Subject (Introduction to Global Management) (E)	Semester, Date and Period of the class	Spring Semester Wednesday, 5th Period
Subject selection	Specialized Course	Years	3 - 4
Instructor	Yoshio SANO (Graduate School of Economics)		
<b>Purpose and aim of the class:</b> This workshop overviews current global economy and global management of various issues, such as corporate management, global human resources management and global trade and environmental issues. By inviting guest speakers from several global companies, we will review the hands-on activities of those companies in the global economy. By reviewing the Japanese economic history, we will try to understand the essential conditions for economic development and globalization. This class aims to foster the basic analytical ability through individual / group project presentation.
